

Junaedi Ramli | Full Stack Developer

Seorang full stack developer sejak 2017 dan telah mengerjakan berbagai proyek backend dan frontend. baik aplikasi web maupun aplikasi seluler Android dan iOS. Dalam membangun aplikasi, saya menggunakan beberapa framework PHP seperti Laravel dan CodeIgniter. Selain itu, saya juga menggunakan JavaScript modern seperti ReactJS. Untuk pengembangan seluler iOS dan Android saya menggunakan React Native. Dari pengembangan backend saya biasanya menggunakan PHP dan setahun terakhir ini saya menggunakan .NET. Dari sisi database, saya biasanya menggunakan MySQL dan SQL Server.
